"NEW MEMBER" RECRUITMENT CAMPAIGN

Ask your colleagues to join GRS!

It's so easy to become a member of GRS - a one-time payment of 100USD will qualify for a lifetime membership! The GRS engages basic scientists, clinicians (paediatric and adult) and clinical investigators from both the public and the private sectors, to promote collaborative research and convey knowledge through our society's journal, scientific meetings and workshops. Additionally, postdoctoral fellows, medical students, and graduate students are encouraged to join. So ask colleagues, fellows and students to join GRS. As a member they will get the twice-yearly GRS Newsletter, participate in all of the decisions of the Society and will be eligible to register for the meetings held every other year at a substantial discount! Membership Forms are available on our website (<http://www.gresearchsociety.org/>)

SUPPORTING MEMBER NEWS

Ferring Pharmaceuticals is now a Supporting Member.

GRS thanks our Supporting Members for your continued and enthusiastic support!

THE MEMBERSHIP COMMITTEE OF GRS ARRANGED THE FIRST GRS MEETING BOOTH AT ECE IN DUBLIN

This was a real team effort, led by Julianne Leger, with handouts and posters provided by Jan Frystyk, Martin Bidlingmaier, and Haim Werner. Jens Sandahl Christiansen, Richard Ross, Gudmundur Johannsson, Peter Kamenicky and Max Bielohuby all staffed the booth, providing handouts and information about our Society. We thank everyone who helped with this project, which we hope will bring some fresh faces into GRS! We also hope that all current Members suggest that their colleagues join the Society, especially with the new, very affordable, one-time, lifetime membership fee of just 100USD! New participants in the Membership Committee are most welcome (contact Beverly MK Biller at bbiller@partners.org)
